All prices exclude VAT and are based on 12-month licensing access.

LET'S GET TECHNICAL

Once you have decided to licence a flick course – we will send your IT team a test file to trial on your system. Then we will send the complete SCORM (1.2 or 2004) package over for hosting on your LMS. We will work alongside your team to make sure everything runs smoothly and can help you any usability testing. After this, you're all set and ready to go!

COURSE UPDATES

Key legislation and guidance can change without you even knowing it – when it does, we make any relevant updates to our course material as soon as possible, and usually ahead of time to make sure our learners can complete the most up-to-date versions of the course as possible. At no additional cost, we'll make sure you receive the brand-new version as soon as it's ready!
